

Perspectives on Politics Quarto Template

Author One, An Organization, USA; Author Two, Affiliation B, USA; and Author Three, A Third Organization, USA

Abstracts should be 250 words. It must be able to stand alone and so cannot contain citations to the paper’s references, equations, etc. An abstract must consist of a single paragraph and be concise. Because of online formatting, abstracts must appear as plain as possible.

Introduction

Thanks for using Quarto to write your article. This Quarto template is unofficial and based on Overleaf’s Perspectives on Politics template.

Your introduction goes here. Make sure the first paragraph here is at least three lines long, to accommodate the dropped-cap. Some examples of commonly used commands and features are listed below, to help you get started.

Since we are in Quarto, you can cite with an @ symbol, like Knuth and Bibby (1984). As seen below, you can mix markdown and Latex with each other, though it’s likely best to mostly use markdown.

Author One  *Professor of Political Science at An Organization. Her research targets the intersection of politics and belonging in relation to immigrant integration issues and national identity, from the point of view of minorities and majorities alike.*

We are grateful for the technical assistance of A. Author.

Cross Referencing

To reference a figure with example label “plot”, use `@fig-plot`. Analogously, to reference a table with example label “data”, use `@tbl-data`. To reference a section, such as the Introduction (Section), use `@sec-intro`.

For complete information on cross referencing with Quarto, see <https://quarto.org/docs/authoring/cross-references.html>.

First Figure and Acknowledgements

The LaTeX template that this is Quarto template is built on breaks if there is a figure on the first page. To avoid this issue, ensure that you have filled out all of the author information. This includes an acknowledgements entry in the header, which indicates author biographical information, along with any additional acknowledgements.

Acknowledgements should indicate the author’s name, position, and affiliation, in the form of “Name is a Position

[doi:10.1017/pps.2023.xx](https://doi.org/10.1017/pps.2023.xx)

at Affiliation.” If the author has an [ORCID account](#), their orcid should be placed in a call to `\authororcid{0000-0002-8514-4315}`, like so. It then contains an extremely abbreviated biography, typically two sentences or so long. Finally, the acknowledgement contains any standard acknowledgements.

Citations

Quarto formats citations and references automatically using the bibliography records in your .bib file. For a citation in parentheses use (Greenwade 1993) and for a text citation: Greenwade(1993). Multiple citations can be given as (Greenwade 1993; Knuth and Bibby 1984). Drop the author like so (1993).

Tables and Figures

To include figures, you can use Quarto syntax. For both figures and tables, you can use LaTeX syntax if you need additional customizability.

Conclusion

The paper should conclude and then have any relevant *Funding Statement*.

This research was supported by grants from the (); ().

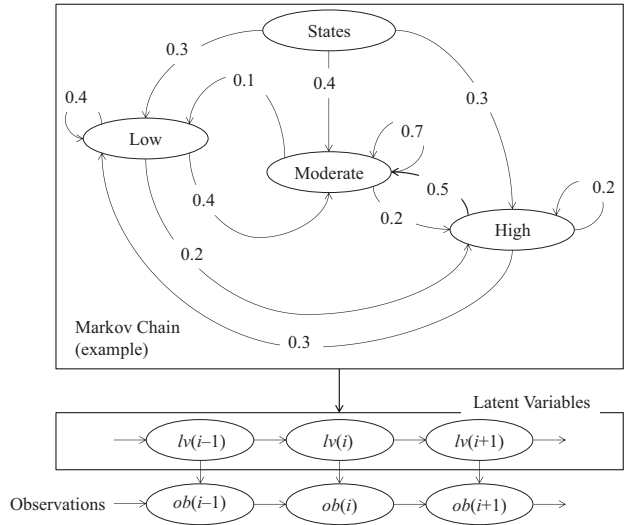

Figure 1
Example figure.

Competing Interests.

A statement about any financial, professional, contractual or personal relationships or situations that could be perceived to impact the presentation of the work — or “None” if none exist

Data Availability Statement.

A statement about how to access data, code and other materials allowing users to understand, verify and replicate findings — e.g. Replication data and code can be found in Harvard Dataverse: <https://doi.org/link>.

Ethical Standards.

The research meets all ethical guidelines, including adherence to the legal requirements of the study country.

Author Contributions.

Please provide an author contributions statement using the CRediT taxonomy roles as a guide <https://www.casrai.org/credit.html>. Conceptualization: A.A; A.B. Methodology: A.A; A.B. Data curation: A.C. Data visualisation: A.C. Writing original draft: A.A; A.B. All authors approved the final submitted draft.

Supplementary Material.

State whether any supplementary material intended for publication has been provided with the submission.
